step-by-step
instructions

Before you Start

Use the QR code inside your kit or go to MosaicDX.com/register to register your test.
No QR code in your kit? Use paper requisition included.

Collection Preparation

- There are no items to discontinue prior to collection.
- Place your ice pack flat in your freezer, so it will be ready to ship with your specimen.
- Review included shipping instructions.
- **Complete the barcode sheet** from your test kit, affixing a barcode sticker to each sample
 - Verify that the information is legible and includes the collection date and a matching name for the test order.
 - **Samples lacking labels will be rejected.**
